OPERATIONAL

Mooring notes

Marina di Porto Cervo

Event-week density for larger LOA; flagship Smeralda quay. 8-16 weeks peak / event weeks. Rolex Cup and peak August densify berths and road access. Presence nights - hold Caprera fallbacks before you fly.

Marina di Portisco

Quieter Smeralda alternative with strong services. 6-12 weeks peak. August densifies popular northeast nights. Practical embark when Porto Cervo is fashion-week tight.

Marina di Olbia

Cleanest OLB door-to-deck - working embark hub. 4-8 weeks peak. Peak summer airport and quay density. Best first-night embark before running to Maddalena.

Berth fees, APA budgets and event lead times are indicative and move with LOA, season and harbour policy. Blue Ocean Club confirms live figures in writing before deposit. Not a substitute for captain pilotage or marina contracts.
